

OUR MISSION

A successful and resilient energy resources sector that contributes to New Zealand through and beyond the transition to a lower emissions world.

OUR VISION

Energy Resources Aotearoa is recognised for its influence in creating a collaborative environment which enables a sustainable energy resources sector, contributing to New Zealand's prosperity through providing secure and affordable energy.

OUR PURPOSE

To be the proactive and influential collective voice for the exploration, production and utilisation of energy resources on issues that matter to New Zealand and our members.

Our Strategic initiatives

- 1 Promote the expansion of energy-based natural resources
- 2 Proactively shape and embed the contribution of New Zealand's energy resources into and beyond our low-emissions transition
- 3 Lead the development of an energy workforce to meet the needs of New Zealand's energy industry, today and into the future
- 4 Collaborate with other to generate membership and alliances for mutually beneficial leverage and impact
- 5 Be an exemplar organisation

How we will get there

Influence

- Become a core strategic and technical voice at the table during the development of relevant Government policy
- Build knowledge and expertise in transition issues
- Implement a proactive external communications strategy

Education

- Drive the identification and provision of skills acquisition, retention and development needs and pathways

Collaboration

- Effective and extensive networking
- Positive external representation
- Form strategic alliances

Embody Best Practice

- Good governance and management
- Excellent support for members

Our Priority deliverables

- 1 Evidence-based policy advice on:
 - a settings that facilitate the efficient access to resources and optimal energy use choices; and
 - b the implications of the global shift to lower emissions for energy use and technology choices
- 2 Raise public awareness of the sector by knowledge and reputation building
- 3 Engage with, and provide and embed the Energy Skills service offering into the energy sector
- 4 Develop and maintain meaningful long-term strategic collaborations with a broader range of members and stakeholders
- 5 Execute organisational best practices including the new strategy
